Varieties of Trees and Shrubs

Experimental Farm Weekly Letter

What varieties of trees and shrubs
are most suited to the soil and
climate of the experimental farm?

This is a question frequently asked
of the horticultural division of the
Experimental Farm.

In answer to this question, it is
essential to know whether the
trees are to be planted on irrigated
or dry land.

On irrigated land, the trees should
be of the hardy variety which will
be able to stand a drought.

On dry land, the trees should be
of the hardy variety which will
be able to stand a drought.

On irrigated land, the trees should
be of the hardy variety which will
be able to stand a drought.

FARRELL LAKE NEWS

The Farrell Lake and Majors

We met at the home of Mrs.
J. Farrell on the 10th of April for
their regular meeting.

The meeting was opened by the
reading of the creed, then the in-
terview of the committee of three.

It was decided that a miscellaneous
collection of forty work be sent to
the fair at Banff, in the charge
of a committee of three.

The meeting was then adjourned
and the ladies, in groups of three,
went out for a walk.
